TO VOL. XXX. (VOL. VI. THIRD SERIES) OF THE AMERICAN
JOURNAL OF PHARMACY.

<i>Abel, F. A.</i> , on arsenic in paper hangings.....	343
Accidents from liquor ammoniæ fortior.....	466
Acetic acid, strength of diluted.....	306
Acetic syrups.....	113
Acetum opii or black drop.....	527
Acid sulphate of zinc paste.....	275
Acidum phosphoricum dilutum.....	358
Action of nitric acid on aporetin.....	448
Address to the Graduates of the Philadelphia College of Pharmacy, 1858.....	193
Adulteration of veratria.....	16
Adulteration of balsam of Peru with castor oil.....	5
<i>Aentle, Prof. J. F.</i> , on the turbit nitrous mineral.....	394
African senna	361
Agassiz, letter of the French Minister to, and his reply.....	180
Agricultural department of the Patent Office.....	485
Alcoholic liquids, examination to ascertain the origin of	273
Aleurites triloba, oil of.....	397
Alkaloids of nux vomica.....	535
Alkaloids, a new precipitant for the.....	550
Alum, ammonio-ferric.....	115
Alumina, employment of, in analysis.....	153
Aluminium, on the iodide of.....	54
Aluminium, on the production of.....	425
American Eclectic practice of medicine.....	190
American Pharmaceutical Association, official call of.....	379, 462
American Pharmaceutical Association, meeting of the.....	381, 464, 576
Ammonio-ferric alum.....	115
Ammonio-iodides of metals, new method of forming.....	57
Ammonio-oxide of copper as a solvent for vegetable fibre.....	230
Ampelopsis quinque folia.....	128
Amylene, condemned by the French Academy of Medicine.....	40
Amylene, notes on.....	169
Analysis, ethical.....	25
Analysis of Rhus toxicodendron.....	542
Ancient quack medicines.....	274
Angustura bark and its oil.....	421
Anthemis cotula, observations on.....	388

Antimoniate of potassa, new process for preparing the.....	71
Anti-asthmatic cigarettes.....	404
Aporetin.....	368
Aporetin, action of nitric acid on.....	448
Apothecaries weights, gold coin a means of adjusting.....	15
Apparatus for rectifying spirits, new.....	1
Apparatus for preparing phosphorus.....	51
Apparatus for corking bottles.....	82
Application of starch sugar for reducing chloride of silver.....	537
Aquarium, the.....	181
Aromatic tincture of calisaya.....	46
Arsenic, researches on.....	125
Arsenic in paper hangings.....	275, 343
Arsenic in subnitrate of bismuth.....	413
Arsenical poisoning.....	413
Artesian wells in the desert.....	83
Artificial rosewater.....	556
Atmospheric electricity.....	87
Atropia, valerianate of.....	262
<i>Avequin, M., J. B.</i> , on the maple sugar of the U. States.....	72
“ on the sugar cane of Louisiana.....	129
Azederach bark.....	126
<i>Babo, Prof. Von, and E. Keller</i> on piperic acid.....	138
<i>Bamber, H. K.</i> , on the liquor potassæ arsenitis of the Lond. Ph.....	233
Bank note engraving and ink.....	186
Basford's compound percolator.....	81
<i>Bassett, M.</i> , on the clarification of sugar and saccharine substances by the employment of soaps.....	264
Belladonal collodion.....	217
<i>Berthelot, M.</i> , on the combination of tartaric acid with sugars.....	154
Bestucheff's tincture of chloride of iron.....	283
Bisulphuret of carbon as a solvent for cubebs.....	125
<i>Bill, Dr. Joseph Howland</i> , on the solvent powers of simple syrup.....	289
“ “ on a test for cinchonina.....	460
Black drop, recipe for the original.....	528
<i>Bleekerode, Prof. S.</i> , on platinum in Borneo.....	417
<i>Blockley, John S.</i> , on the chemical means of rendering timber incombustible.....	323
Blowpipe lamp, on a new fluid for the.....	184
<i>Robierre, M.</i> , on some facts connected with sugar refining.....	134
<i>Böttger, Prof. Rudolph</i> , on the behaviour of various substances towards fused chlorate of potassa.....	69
“ on the application of starch sugar as a reducing agent for chloride of silver.....	537
<i>Bogdonov, M. A.</i> , on the red coloring matter of the feathers of birds.....	166
Borax, syrup of.....	33
Boracic acid, presence of, in the vegetable kingdom.....	159

<i>Boussingault, M.</i> Researches on the influence which assimilable nitrogen in manures exerts in the production of vegetable matter.....	155
Bromide of potassium, impurities of.....	77
Bronze powder.....	356
<i>Bruning, A.</i> , on lactic acid.....	423
<i>Brunner, C.</i> , on the preparation of manganese.....	173
Buckwheat considered as food, researches on.....	426
<i>Bullock, Charles</i> , on the hypophosphites.....	512
Buchu, on fluid extract of.....	311
Buignet's method for the quantitative determination of hydrocyanic acid....	541
<i>Cadbury, J. W.</i> , on podophyllin.....	301
Cadmium, on iodide of.....	79
<i>Calvert, Prof. Crace</i> , on the colors obtained from coal tar products.....	268
“ on patent gum.....	272
Caluris auriceps, red coloring matter of the feathers of.....	166
Calomel, on iodide of.....	168
<i>Campbell, Samuel</i> , on fluid extract of sanguinaria.....	221
“ on fluid extract of <i>Leptandra virginica</i>	225
Canada liniment.....	93
Capsicum annum.....	296
Carbonic acid gas, deodorization of.....	260
Carbonate of cadmium, poisoning by.....	401
<i>Carter, John E.</i> , on an adulteration of veratria.....	16
“ on colchicia.....	209
<i>Caspari, Charles</i> , on the preparation of <i>Mel despumatum</i>	363
“ on collodion.....	371
Castor oil, method of purifying commercial.....	274
Castor oil used as an adulteration of balsam of Peru.....	570
Catalogue of the class of the Philadelphia College of Pharmacy, 1837-8.....	95
Caustic alkalies destructive of atropia, hyoscyamia and daturia.....	127
Cavendish Society.....	283
Cements for stopping teeth.....	182
Chamomile, Roman, in suppurations.....	238
Charcoal biscuits.....	125
Charcoal paper.....	536
Chemical characteristics of pure glycerin.....	87
Chemical means of rendering timber incombustible.....	323
China oranges, essential oil of.....	136
Chinese poisons.....	61
Chinese sugar cane.....	105
Chlorate of potassa, behaviour of various substances towards fused.....	69
Chlorate of soda as a substitute for chlorate of potassa.....	569
Chlorine as a disinfectant, mode of using.....	125
Chloride of ammonium, production of.....	49
Chloride of silver, reduction of, by starch sugar.....	537
Chloroform, gelatinized.....	127

<i>Churchill, J. Francis, M. D.</i> , on the hypophosphites.....	459
" on the proximate cause and specific remedy of tuberculosis.....	143
Chromic acid for removing warts.....	273
Chrysophane.....	367, 442
Cinchona, on several pharmaceutical preparations of.....	45
Cinchona, remarks on fluid extract of.....	17
Cinchona alkaloids, ordinary methods of testing the.....	241
Cinchona bark, test for	350
Cinchona bark of New Granada.....	534
Cinchonia, test for.....	460
Citrate of iron and strychnia.....	275
Citrate of magnesia, new method of preparing the solution of.....	31
Citrine ointment.....	103
Clarification of sugars, &c., by soaps.....	264
Coal tar products, colors derived from.....	268
Coating pills extemporaneously.....	514
Cochineal, researches on.....	261
Cold cream.....	316
Collodion, remarks on.....	371
Collodion, preparation of.....	538
Collodion, on the preparation of.....	212
Collodion in pharmacy.....	216
Colchicia	205
<i>Collins, C. F. G.</i> , on coating pills with sugar extemporaneously..	514
Compound syrup of hypophosphites.....	122, 226
Compound syrup of iodohydrargyrate of potassium.....	105
Compound syrup of phosphates.....	224
Compressed air.....	181
Conia in toothache.....	400
Constituents of rhubarb, on some.....	368, 442
Confection of cinchona as an antiperiodic.....	145
Contrivance for dispensing oils.....	222
Concentrated organic medicines, Keith & Co. on.....	578
Copying ink.....	184
Corrosive sublimate and collodion as an escharotic.....	127
Cotton culture of India by Dr. Royle.....	337
<i>Coulter, M.</i> , on the materials used for clothes.....	368
<i>Crawcour, J. L., M. D.</i> , on the removal of warts by chromic acid.....	273
Croton oil.....	409
Crotonic acid.....	411
Crotonole.....	412
Cyanide of silver.....	276
Cyclamen Europæum.....	21
<i>Dannecy, M.</i> , on syrup of protocarbonate of iron.....	459
<i>De la Rue and Miller</i> , on some constituents of rhubarb.....	366

Decoctum aloes compositum.....	355
Decomposition of quinia salts by the acetates.....	386
Detection of strychnia	59
Decolorizing agent, on a new.....	150
Digitalin, poisoning by granules of.....	265
Digitalis seed.....	398
Diseases of quinine makers.....	569
